Note: Subject to the passage of enabling legislation, the introduction of the new private health insurance reforms expected to come into effect on 1 April 2007 will mean that there will be no need to formally approve outreach services in the future. However, under the proposed transitional arrangements, those services already determined as outreach services under Section 5D of the *National Health Act 1953* will continue to be treated as hospital treatment to 30 June 2008.
